

Trump Accomplishments

There are many people who do not like President Trump's style and his method of communication and have even go so far as to say that they couldn't vote for him because of this.

Nobody is asking you to love President Trump. Nobody is asking you to be his best friend. In fact, you don't even have to like him. It's his policy you should love.

Take a moment to review some of what he's accomplished for America — often against overwhelming odds and with powerful special interests aligned against him.

Focus on the accomplishments, not the personality. Focus on who has the vision, stamina and determination to do the job; who gets things done and who's going to continue to get things done and keep America on the right track moving forward.

This is not a complete record of what President Trump has done for America, but it speaks for itself.
